

Green Efforts at Daniels Graphics...

We have always been a company very conscious of our community, our environment, and our impact.

✓ We use all linseed/soy based inks

✓ We commonly use "Tree Free", recycled, or synthetic paper (Last year alone we printed over 8 tons of Forest Stewardship Council (FSC) certified paper)

✓ We are a "tri-certified" commercial printer. Our three chain-of-custody certificates allow us to add to your printed pieces statements and logos from the three major forest stewardship programs – Forest Stewardship Council (FSC), Sustainable Forestry Initiative (SFI), and the Programme for the Endorsement of Forest Certification schemes (PEFC). These programs each seek to certify individual forests as being grown in an environmentally and socially-responsible manner.

✓ We are held to very strict standards by our customers (including Warren Wilson College)

✓ We recycle all of our scrap paper and make-ready, and cardboard

✓ We recycle all oils and solvents

✓ We give to various organizations locally (both in-kind and financially)

✓ As an organization, we are actively involved in the Western North Carolina community and take our impact on the area seriously

✓ We are regularly inspected by MSD and insure that nothing toxic goes down our drains.

✓ Any chemical that we use (blanket wash, etc.) is sealed in containers and taken away for proper disposal by Safety-Kleen.

✓ Daniels Graphics waste classification is "Small Quantity Generator", most printers our size are considered "Large Quantity Generators" due to the products and processes they use

✓ Our fountain solution has low VOC's (volatile organic compounds)
